

JÜN

INTERIOR ✕ ANTWERP

With a focus on design, quality, natural colors
and championing traditional artisanry, JÜN
introduces a new dimension to interior fabrics
and accessories.

In the heart of Antwerp, Belgium, we design
our collections with the utmost care. Our brand
story is one inspired by our love for textures
that are as bold as they are unique, a
commitment to supporting (female) artisans
while preserving century-old techniques.

We invite you to explore our collections, where
each fabric has a story to tell.

Warm Regards,

JÜN
INTERIOR ✕ ANTWERP

NATURE

Our dedication to promoting natural elements is what unites our collections: the use of natural fibers with natural colors or natural dyes and locally sourced raw materials.

By committing to natural fibers, we create fabrics that prioritize comfort, sustainability and a close connection to nature.

We're all about celebrating the natural colors of yarn. When dyeing our yarn, we prefer natural dyes over chemical coloring.

The majority of raw materials used in crafting our fabrics is sourced locally, harvested from the very regions where our artisans bring our creations to life.

By sourcing locally, we support the communities and ecosystems where our products originate.

EROSION COLLECTION

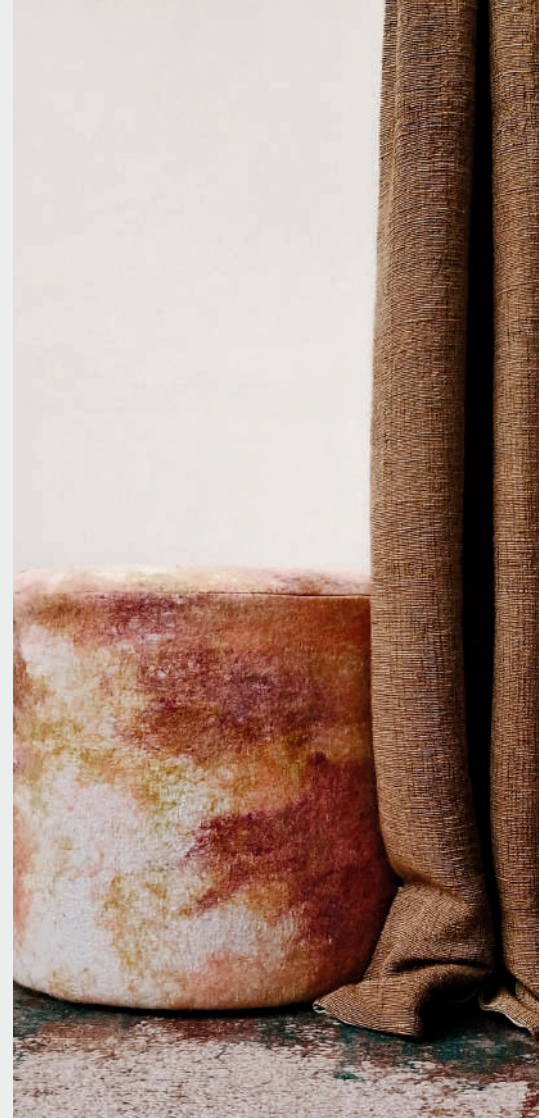

Felted by hand by female artisans with merino wool from the mountains of Kyrgyzstan, every fabric from this collection is unique.

Having spent time in Kyrgyzstan as a multimedia journalist, I have met a number of women practising the century-old wet felting technique at their homes. Ever since, it has been my dream to use this technique to create modern designs and high quality products while creating fair employment opportunities for the artisans.

Our brand name JÜN is an ode to Kyrgyzstan, the country that has a special place in my heart and is also the motherland of my partner, Michel.

JÜN means wool in the Kyrgyz language. The Erosion collection is truly a celebration of our love for Kyrgyzstan, its people, craftsmanship and traditions.

We hope you will love this collection as much as we do.

DUYÉ COLLECTION

Crafted by skilled female artisans in Turkmenistan, our Duyé collection is one-of-a-kind.

In this collection, camel wool intertwines elegantly with silk or cotton, resulting in a unique blend of natural fibres.

From annually shearing the camels to the silk production and weaving of the fabric, every step in the process is performed manually.

The journey commences with the process of silk making, setting the stage for the creation of these exceptional textiles. The use of the camel wool's authentic, earthy tones define this collection.

Duyé means 'camel' in the Turkmen language. These textiles are a tribute to the artisan's cultural heritage, their profound connection to the desert and the artistry passed down through generations.

Ethically crafted

Our partners are women-owned and women-led cooperatives. established as a means to empower local women.

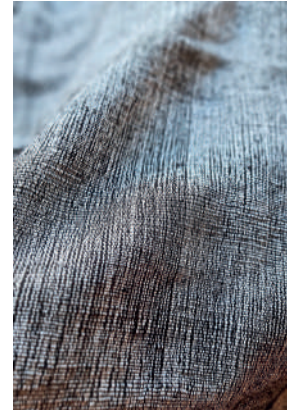

We are loyal to our partners, dedicated to provide a stable future for the employees while taking care of the environment.

WILDCRAFT COLLECTION

Introducing the ‘Wildcraft’ Collection – a harmonious fusion of nettle and cotton – making use of natural dyes only, handwoven by our talented local artisans.

In the northern reaches of India, wild nettle thrives abundantly. Its flexible stem fibers are skillfully woven into fabric by local communities of artisans. Blended seamlessly with the gentle touch of cotton, these fabrics offer a luxurious feel against the skin while maintaining their strength and longevity.

Harvested between November and December, nettle embodies a sustainable textile source, that benefits the local communities and the environment.

With this collection of naturally dyed fabrics, JÜN celebrates natural fibers.
